现代简约的外观设计，
用富有线条的结构书写的是对生活美好的向往

Modern simplicity style,
lines design express the longing for a better life,

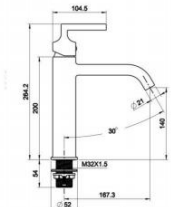

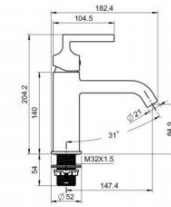

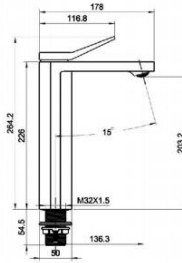

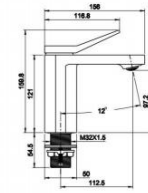

产品把细节做到极致也能成为艺术品，
更何况本身就是一款富有艺术性的产品。

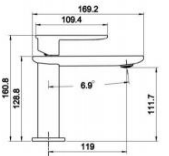

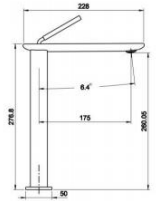

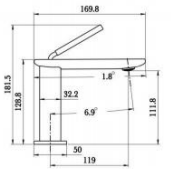

Ordinary products can become works of art with
the finest details, not to mention artistic products
in itself.

Material-Fair Faced Concrete

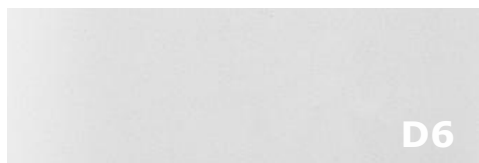

Fair Faced Concrete

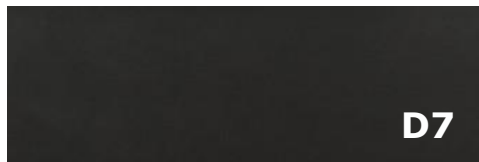

The concrete series is dedicated to the natural expression of cement materials. The product surface retains the original finish and hole texture after pouring and demoulding, and part of the sand and gravel are naturally exposed through the grinding process, expressing the unique industrial design aesthetics of fair-faced concrete with a direct and simple surface appearance. The main material is made of cement and fine sand, without adding chemical coagulants such as resin.

Material-Fine aggregate Terrazzo

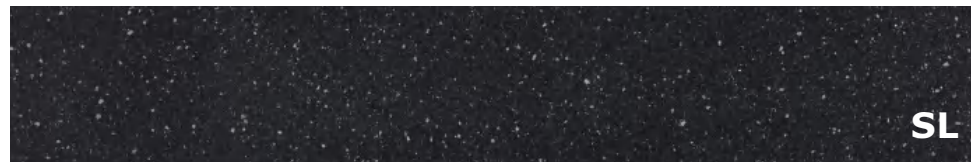

Fine aggregate Terrazzo

Fine aggregate terrazzo is different from coarse aggregate terrazzo. It is made of various fine sands of 30 mesh to 80 mesh and cement, and there are no obvious particles or small particles on the surface. The decorative effect is more simple and elegant than coarse aggregate terrazzo, and it is suitable for spaces that require a consistent overall style.

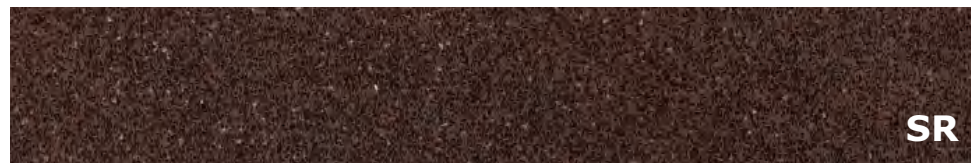

SW

SL

SGB

SR

SBB

Material-Coarse aggregate Terrazzo

Coarse aggregate Terrazzo

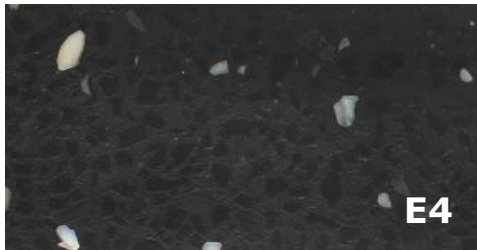

Coarse aggregate terrazzo is mainly made of all kinds of 3mm~5mm gravel, gravel, shell and cement mixed, has a strong sense of nature. Particle size is moderate, the overall style is slightly lively. The appropriate use of terrazzo decoration will not rob the style of the main body of the space, but also can play a decorative effect, for the overall space design to bring fresh feeling.

Material-Art paint

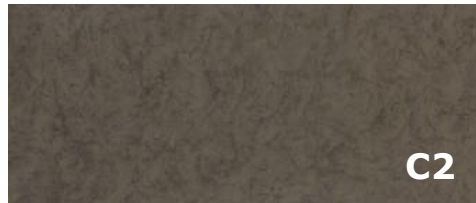

Art paint

Art paint refers to spraying paint on the outside of the concrete body to cover up the defects of uneven color and rough texture of the cement itself. Art paint is divided into two categories: pure color and artistic effect, from Macron color to Morandi color, a variety of colors and choices. The artistic effect is made by artificially using natural seaweed sponge to create a natural texture effect on the surface of the product, which is clear and three-dimensional, and has an excellent sense of relief art.
